Liberal Barbarism Mar 30 2021 In Liberal Barbarism, Erik Ringmar sets out to explain the 1860 destruction of Yuanmingyuan - the Chinese imperial palace north-west of Beijing - at the hands of British and French armies. Yuanmingyuan was the emperor's own theme-park, a perfect world, a vision of

paradise, which housed one of the greatest collections of works of art ever assembled. The intellectual puzzle which the book addresses concerns why the Europeans, bent on "civilizing" the Chinese, engaged in this act of barbarism. The answer is provided through an analysis of the performative aspect of the confrontation between Europe and China, focusing on the differences in the way their respective international systems were conceptualized. Ringmar reveals that the destruction of Yuanmingyuan represented the Europeans' campaign to "shock and awe" the Chinese, thereby forcing them to give up their way of organizing international relations. The contradictions which the events of 1860 exemplify - the contradiction between civilization and barbarism - is a theme running through all European (and North American) relations with the rest of the world since, including, most recently, the US war in Iraq.

***A Confederate Soldier in Egypt Sep 16
2022 General Loring was one of many***

Confederate officers who after the close of the War of the Rebellion offered their services to foreign rulers. A number of these officers took their way to Egypt, and the author of this book was one of the most successful of them all. He was made Pasha by the Khedive, and he rendered that ruler honorable and efficient service. It was natural that Loring Pasha should have been led to give his Egyptian experiences durable shape, and his book gives a clear and agreeably written account of the country. Such a writer has much more authority than the mere traveler. General Loring lived long in the country, and in intimate relations with persons at the centre of affairs; being withal a man of thought and intelligence he could not, with his opportunities, fail to acquire and retain impressions and facts of interest and value.

Travels in the Mogul Empire, A.D. 1656-1668 Nov 06 2021

A History of China from the Earliest Days Down to the Present May 12 2022 The present volume professes to give the history of China in a form that is new to the English reader. It is not a compilation gathered from all kinds of sources, but a reproduction, from the original, of the Standard History of China. That work and the writings of

Confucius and Mencius are the only authentic sources from whence the story of the Empire can possibly be obtained. Many writers during the long ages of the past have written the history of their times, but they are unreliable and valuable only in so far as they agree with the accounts contained in the above standard work. -- Preface.
