*Expecting Greater reminds the Christian reader that God is for us, but that His will for our lives is not the easy road. Instead, God's will, according to Scripture, cares more about our character and our relationship with Him than it does our bank accounts and social media followers. When our trust and hope are placed in the Lord, God's vision for our lives far outreaches our own. Desire is at the heart of what it is to be human. The power of desire, while embodied and sensuous, is God-given and the key to all human spirituality. Humanity is blessed with a deep longing that is infinite in extent and can only ultimately be satisfied in God. Befriending Our Desires portrays the intimate connection between desire and the spiritual journey. Drawing on Hebrew and Christian Scriptures, Christian spiritual classics (with some reference to Buddhist spirituality), poetry, and other literature, plus personal and pastoral experience, Philip Shel Drake explores the role of desire in relation to God, prayer, sexuality, making choices, and responding to change. From his Jesuit background, Bernie Owens has written a twenty-first-century version of Teresa of Avila's sixteenth-century classic, The Interior Castle. He writes in an experiential, easy-to-read style with numerous contemporary stories taken from North American and African cultures to illustrate the seven stages of spiritual growth Teresa describes. His book is a map for those seeking guidance on how to grow into praying and living contemplatively and dispose themselves*

for entering the deeper stages of the spiritual journey. Finally, he names issues that frequently emerge during the spiritual journey, describes the way for becoming a Beloved Disciple of Jesus as a proven path for living intimately with Christ and the Triune God, and, lastly, presents the kind of God Teresa knew and fiercely loved. In our dreams are desires that become alive when dreaming. The book *Dreams Desires* is about deep personal poetry that the author wrote in 2014 totally inspired by his dreams. As he dreamt of the poems he simply put them in writing. The author allows the reader to understand at how his desires became alive in his dreams. The controversial evangelical Bible scholar and author of *The Bible Tells Me So* explains how Christians mistake "certainty" and "correct belief" for faith when what God really desires is trust and intimacy. With compelling and often humorous stories from his own life, Bible scholar Peter Enns offers a fresh look at how Christian life truly works, answering questions that cannot be addressed by the idealized traditional doctrine of "once for all delivered to the saints." Enns offers a model of vibrant faith that views skepticism not as a loss of belief, but as an opportunity to deepen religious conviction with courage and confidence. This is not just an intellectual conviction, he contends, but a more profound kind of knowing that only true faith can provide. Combining Enns' reflections of his own spiritual journey with an examination of Scripture, *The Sin of Certainty* models an acceptance of mystery and paradox that all believers can follow and why God prefers this path because it is only this way by which we can become mature disciples who truly trust God. It gives Christians who have known only the demand for certainty permission to view faith on their own flawed, uncertain, yet heartfelt, terms. *The 13th Life of Desire*; with the subtitle: *Putting under Control all Desires*; tends to showcase the rebirth of thirteen lines from the first three lines of desire in our daily life, for example: I once loved, and I smiled, then I missed. He is perfect, she is sweet. These are just few words of a single breath of our desire in life: in high school, college, home and work place. The rest thirteen lines will follow and flow like a river. Probably the next line will be: I long to kiss and be kissed. Desire and fear are the two most powerful emotion in which most life in the world is propelled. There is something we desire, that is why we admired and loved; there is something we fear, that is why we doubted and hesitated. We desire, but we are afraid and uncertain of how we can acquire our wanting. Life desires in a poetic expression is the most noble and true expression in the human language. It is not fiction, it is fact in the sense that I do not decide to write a poem, but i find myself writing; just like dreaming, i do not decide to dream, i just find myself in the dream dreaming. And that is why i have dream poems and a well outlined at the end of my book is a thesis: Why do we dream? Dream desires are

also part of my life poetry and our daily desires. The only difference is that i write them in moment of dreaming while i am awake; and the former, I write down upon waking from the dream, though they will be just fragments of dreams. Inspiration is the mother of desire and nature is its source. People are part of nature and form part of desire and inspiration. We appreciate beauty and the loveliness of things that capture our hearts and eyes, igniting the urge to: experience, possess and live it. It's the sublime moment of life or feeling alive. What makes us feel alive is what we desire and therefore we live to want it. But the main issue is... are we satisfied? And if not, can we control our desires? From our perception to our imagination, from our sight to our touch, from our feelings to our needs, the 13th Life of Desire tends to showcase the rebirth of next thirteen lines of desire from the first three lines of inspiration. Inspiration is limited, i mean, brief, but desire is unlimited, you will always desire, always want, you will always need. What a pity for humanity! And as i laugh on my last line, i know, for i have lived and written on it; forming the 13th life of desire. How restless our hearts are in relation to life needs, make me wonder why, and the WHY made me write. Scriptures give us comfort and hope to keep on going, poetry gives us life reality and makes us smile, saying, i was once there, i know, i feel it. Emotions can blot out reason, and poetry requires wisdom, that is, organized life, words and thoughts; how things real are, how we understand them and live with them. After all, desire is necessary, it propels us to work hard, think, and be creative. But, it can also make us envy, corrupt, steal and kill. It's both side of the coin. You can use it to buy goods or use the same coin (money) to corrupt. It's just the way someone may interpret a scripture; the love of money is the root of all evil, but someone somewhere might think...well, the love of money is its root for most goods and happiness. You see. So desire is like a coin, it is just how we see it. At the end of the day, the size of your success depends on the depth of your desire. The late South African president, Nelson Mandela once said "If you speak to a man in a language he understands, it goes to his mind, but if you speak in his language it goes to his heart." And in the thirteenth life of desire I speak in our most secret human language of desire, in prose form and rhyme. The problem with desire is that we would do anything to experience, acquire and satisfy it. Our life is full of desires; our body is a lamb of avarice. But the main question is: How do we control our desire driven life? Desire is not a sin, but anxiety is an inward sin. Originating at the 2011 conference of the International Academy of Practical Theology in Amsterdam, this volume explores the practical theological significance of desire. Although desire is central to many issues in practical theology and related disciplines, it is only rarely discussed under its own name. Three

introductory chapters locate desire in concrete practices in the city and discuss the phenomenology, theology, and ethics of desire. Subsequent sections are organized around embodying desire, culturing desire, and transforming desire. The chapters include various kinds of desire, such as sexuality, consumerism, and spirituality. Perspectives from different contexts and religious traditions are offered in this rich and thought-provoking book. (Series: International Practical Theology - Vol. 16)

Death has long been a pre-occupation of philosophers, and this is especially so today. The Oxford Handbook of Philosophy of Death collects 21 newly commissioned essays that cover current philosophical thinking of death-related topics across the entire range of the discipline. These include metaphysical topics--such as the nature of death, the possibility of an afterlife, the nature of persons, and how our thinking about time affects what we think about death--as well as axiological topics, such as whether death is bad for its victim, what makes it bad to die, what attitude it is fitting to take towards death, the possibility of posthumous harm, and the desirability of immortality. The contributors also explore the views of ancient philosophers such as Aristotle, Plato and Epicurus on topics related to the philosophy of death, and questions in normative ethics, such as what makes killing wrong when it is wrong, and whether it is wrong to kill fetuses, non-human animals, combatants in war, and convicted murderers. With chapters written by a wide range of experts in metaphysics, ethics, and conceptual analysis, and designed to give the reader a comprehensive view of recent developments in the philosophical study of death, this Handbook will appeal to a broad audience in philosophy, particularly in ethics and metaphysics. In this instructive and inspirational book, Mark and Debra Laaser teach us how to have richer relationships with God and others. Using stories and straightforward observations, they examine seven desires we all share, and illustrate how understanding those desires can enhance our relationships and enrich our lives.

The author--a lesbian, sex radical, ex-hooker, feminist, leftist organizer, and award-winning filmmaker--presents over 20 years of her writings and five new essays, including "A Queer Girl Dreaming Her Way Home". She looks at themes such as the relationship between activism and desire and how sexuality is tied to one's class identity. 41 photos. The title of the manuscript is a direct reflection on how I achieved a desired work and personal life, and what I achieved from the content of my dreams. What I did achieve took work on my part that sometimes-required years of dedication. What I wanted, what I worked for - always resembled "No Deposit, No Return!" Can we find a life filled with passion, without being overwhelmed by it? In this groundbreaking book, John Eldredge invites readers to acknowledge the significance of desire, abandon resignation, and embark on an adventure he calls "our heart's most important journey." Eldredge writes, "There is a secret set within each of our hearts. It is the desire for life as it was meant to be." Yet how do we uncover our desires and learn to decipher them? As Eldredge says, "We all share the same dilemma—we long for life and we're not sure where to find it. We wonder if we ever do find it, can we make it last? . . . We must journey to find the life we prize. And the guide we have been given is the desire set deep within, the desire we often overlook or mistake for something else or even choose to ignore. The greatest human tragedy is to give up the search." Many good people have been told that the path to a holy life requires us to kill our hearts' desires. And call it sanctification. But in this re-release of one of Eldredge's most inspiring works, we discover that God is the author of our deepest desires. He has given us desire, and he loves to fulfill our hearts' desires. For as the Psalms declare, "Delight yourself in the Lord, and he will give you the desires of your heart" (37:4). God is calling to you through the desires of your heart. How you respond will set the course for the rest of your life. "[Desire] is a profound and winsome call to walk into the heart of God and hear Him sing to your soul about His love. In a world of frenzy and clamor about desire, we often miss the ache that lifts our face to look into His eyes. This book will stir your heart and invite you to know the one desire that captures all passion for His purpose. Drink in this

work, and your life will not be the same.” Dan Allender, Author, *The Healing Path* What do we want? What makes us tick? From acceptance to vengeance to curiosity, this book explains the 16 basic and universal desires that shape our behavior—and shows how the ways we prioritize them determines our personalities. Grounded in up-to-date psychological research, this book can help parents comprehend their children’s needs and behavior couples understand each other better employers motivate their employees employees become more effective in their work YOU achieve greater satisfaction and happiness in life In this book, Louis Roy criticizes two different attitudes concerning our desires: either we are wary of our desires because of their potentially negative effects, or we try to satisfy as many of them as we can. Both attitudes focus on desires without examining the issue of desire. The solution is neither to suspect nor to multiply our various desires, but rather to intensify desire. Once desire has intensified, we can accept our desires and identify some of them as priorities for us to fulfill. We will then proceed not only with motivation but also with detachment, and therein lies the key to happiness. Any human being wishes to be granted personal value as a unique individual worthy of respect. And we long to be desired by the person or persons we desire. Moreover, because of our infinitude, we are able to wonder if an infinite being, whom we respect without reserve, can find us desirable. The author explores this basic concern and describes the relationship of mutual desire between Jesus and his first disciples. Thus, this book will appeal to educated readers interested in spirituality, psychology, literature, catechesis, and pastoral ministry. “Desire is here to stay. The challenge we all face, and which I intend to guide you through, is to learn how to take into account the full measure of who you are and use the positive force of all four of your soul’s desires to lead you to your best life.” –Rod Stryker According to ancient Yogic tradition, your soul has four distinct desires: • The desire for purpose, the drive to become who you are meant to be • The desire for the means (money, security, health) to prosper in this world • The desire for pleasures like intimacy, beauty, and love • The desire for spiritual fulfillment and lasting freedom Learning to honor these four desires is the key to happiness, and to a complete and balanced life. But how can you discern what will truly satisfy your desires? How can you increase your capacity to achieve them? What if your desires seem to conflict with one another? Is it really possible to live a spiritual life while also wanting material pleasures and success? For more than three decades, master teacher Rod Stryker has taught yoga in the context of its deepest philosophy. His course, called *The Yoga of Fulfillment™*, has helped thousands recognize their soul’s call to greatness and to achieve their dreams. Now, in this wise and richly practical book, he has distilled those broad

teachings into a roadmap for becoming the person you were meant to be. It is filled with revealing true stories, provocative exercises, and practices for unlocking your inner guidance. And even if you've never done a yoga pose, you can follow this step-by-step process to:

- discover your soul's unique purpose—the one you came into this world to fulfill.
- recognize the goal(s) you need to focus on at any given time and enliven your capacity to reach them.
- overcome self-defeating ideas and behavior.
- recruit your deepest energies and strengthen your resolve to meet any challenge.
- learn to live with joy at every stage of your growth.

The *Four Desires* is nothing less than a complete path toward living your best life possible—a life that is rich in meaning and in means, a life that attracts and emanates happiness, a life that is your unique gift to yourself and the world. Despite rhythm and blues culture's undeniable role in molding, reflecting, and reshaping black cultural production, consciousness, and politics, it has yet to receive the serious scholarly examination it deserves. *Destructive Desires* corrects this omission by analyzing how post-Civil Rights era rhythm and blues culture articulates competing and conflicting political, social, familial, and economic desires within and for African American communities. As an important form of black cultural production, rhythm and blues music helps us to understand black political and cultural desires and longings in light of neo-liberalism's increased codification in America's racial politics and policies since the 1970s. Robert J. Patterson provides a thorough analysis of four artists—Kenneth “Babyface” Edmonds, Adina Howard, Whitney Houston, and Toni Braxton—to examine black cultural longings by demonstrating how our reading of specific moments in their lives, careers, and performances serve as metacommentaries for broader issues in black culture and politics. “When we realise the truth about desire, we will know the truth of our existence.”

With an arresting combination of confrontational poems and challenging, pithy sayings, Darcy Green faces the evils of modern life head on. Not by political action or insurrection, but by the power of introspection and summoning the natural creativity within the human spirit. In a compelling, humorous, yet at times unsettling panorama of images, the ills of greed, selfishness and capitalism are gently but forcefully exposed. No area of human experience is off limits from the penetrating gaze of the investigative poet. Hope, love, sex, birth and death, animal welfare, belief and scepticism and the planet's future are all embraced in a determined search for meaning in an uncertain world. For fans of Lauren Groff, Maggie O'Farrell, and Emma Donoghue, a devastating novel of love, intrigue, and community in a time of sickness that remade the world Fourteenth-century Europe. The Black Death has killed half the known world, and in an isolated convent, a small group of nuns spends their days in work, austerity, and

devotion, chanting the Liturgy of the Hours. But their community is threatened. Rumors of heresy and a scandalous Book of Ursula, based on the teachings of the charismatic former abbess and founder of the order, have prompted the male church hierarchy to launch an investigation. The priest assigned to minister to the nuns, Father Francis, who is wracked by guilt for an unspeakable crime committed during the lawless plague years, was no friend of Ursula and can't be counted on to defend the order. Disrespect and rebellion infect some novices, and the youngest among them pines for the bishop's chief inquisitor. And Mother John, the convent's aging spiritual leader, fears she's losing her mind after experiencing a vision that brings back her own rebellious past. As events unfold over the course of a single day, a blizzard that has swept across Europe will break over the convent, endangering the women there and testing their faith. In this astonishing novel, the author of the award-winning *Songs for the Butcher's Daughter* explores the territory between faith and freedom, and how the horrific events of history shape individual lives. This book examines the enormous industry of Indian popular cinema. It provokes a thinking of cinema as political in the widest sense - from its importance in ideas of nation and national cultural formation to class and gender. Human desire is a fundamental part of our existence. They drive us to seek pleasure, security, and connection with others. But when left unchecked, these desires can lead to destructive and harmful behaviors. In this book, we explore the evolution of human desires, the negative consequences of unchecked desires, and strategies for reducing the power of desires.

**THE MALORYS RETURN** Johanna Lindsey sweeps readers into the dazzlingly passionate world of the incomparable Malorys, an aristocratic family of rakehell adventurers and spirited ladies -- which turns ever more tempestuous when James Malory introduces the daughter of a pirate to London society. Gabrielle Brooks sets sail from England to a Caribbean island in search of her estranged father and encounters a life-altering surprise -- her father is a pirate. After spending three wonderful years hunting treasure with him, Gabrielle is dismayed when he decides she must return to London to find a proper husband. His old friend James Malory will sponsor her in polite society. Gabrielle is escorted to balls and parties by James's wife, Georgina, and her brother, Drew Anderson, a dashing American sea captain and fun-loving rogue. When Drew embroils Gabrielle in a scandal the night before he's to sail home, the pirate's daughter vows revenge by commandeering Drew's ship and taking him prisoner. But as passion runs high on their sea voyage, it becomes difficult to tell who is truly the captor and who is the captive. As human beings, we are created with universal longings. Where can our restless hearts find fulfillment? Philosopher and apologist Greg Ganssle argues that our widely shared human aspirations are best understood in the light of

the Christian story, and that the good news of Jesus Christ makes sense of—and fulfills—our deepest desires. Money can buy you freedom. But what about happiness? When Jocelyne looks at herself in the mirror, she sees a middle-aged, married woman who runs a dressmaking shop in a small provincial French town and lives a very ordinary existence. But what happened to all those dreams she had when she was seventeen? Then she wins millions on the lottery and has the chance to change her life for ever. So why does she find herself reluctant to accept the money? To help her decide what to do, she begins to compile a list of her heart's desires, never suspecting for one moment that the decision might be taken out of her hands ... This new take on relationships changes everything! By examining the seven desires we all share, Mark and Debra Laaser illustrate how men and women are actually more alike than different. Do you long for ways to: Tune in more closely to your children? Connect on a deeper level with your spouse? Strengthen friendships? Reach a fuller relationship with God? The Laasers look past what separates us to examine what connects us. Instead of focusing on how to sidestep or compensate for perceived differences, they dig deeper, to the core of our souls, to examine how the basic needs of all people make us more alike than different. *Seven Desires* explores the common desires God has given us—to be heard, affirmed, blessed, safe, touched, chosen, and included. Using stories, biblical references, and sound psychological principles, the Laasers explain each desire and show us how we seek it and what it feels like to have it truly fulfilled. You will learn healthy ways to embody these desires in your relationships and receive the tools you need to start repairing and rebuilding relationships and developing new skills for creating emotional and spiritual intimacy. What do we want? What makes us tick? It answers the questions of what accounts for self-defeating behavior patterns and how do we best motivate individuals to act according with their long-term

goals. A better understanding of decision processes will lead to an improved knowledge of why people engage in self-destructive behaviors and better policy interventions in areas of addiction and obesity. The approach also promises to be valuable as a framework for understanding decisions for an addict's professional and business life. This book will be of particular use to clinicians, students, and researchers in the fields of addiction, public health, and behavior therapy. 'Thoughtful, lucid and blessedly free of therapese . . . In his cultural analysis of the motor car in Germany, Wolfgang Sachs starts the assumption that the automobile is more than a means of transportation and that its history cannot be understood merely as a triumphant march of technological innovation. Instead, Sachs examines the history of the automobile the late 1880s until today for evidence on the nature of dreams and desires embedded in modern culture. This book explores the nature of Germany's love affair with the automobile. A "history of our desires" for speed, wealth, violence, glamour, progress, and power--as refracted through images of the automobile--it is at once fascinating and provocative. -- Sachs recounts the development of the automobile industry and the impact on German society of the marketing and promotion of the motor car. As cars became more affordable and more common after World War II, advertisers fanned the competition for status, refining their techniques as ownership became ever more widespread. Sachs concludes by demonstrating that the triumphal procession of private motorization has in fact become an intrusion. The grand dreams once attached to the automobile have aged. Sachs appeals for the cultivation of new dreams born of the futility of the old ones, dreams of "a society liberated progress," in which location, distance, and speed are reconceived in more appropriately humane dimensions.
