Handbook of ICC Arbitration provides expert analysis of the whole process of using and adhering to the ICC Arbitration Rules. It examines close up the diverse issues that can occur during an arbitration and hosts essential information related to arbitration on an international level with reference to published and unpublished awards and procedural orders, as well as to many decisions of national courts. The Collection of ICC Arbitral Awards 2016;2020 contains extracts of cases handled by the ICC Court of Arbitration, one of the world's most respected arbitral institutions. This most recent collection supplements seven previous and successful volumes containing awards from the period 1974 to 2015. This collection is a practical reference tool, containing three types of useful indexes incorporating information from all three volumes: a consolidated analytical table, in both English and French, contains extensive cross-references based on the terminology used in awards and case notes; a chronological index lists the awards; a keyword index, also provided in both languages, allows the reader to locate the material of interest quickly and easily. In addition to providing a wealth of information in a highly accessible manner, this book includes case notes and expert commentaries on the awards. This publication is an indispensable reference work for anyone interested in international arbitration and in the reasoning of international arbitrators on the interpretation and application of contractual clauses, international conventions, and the law of international trade. It is invaluable to both scholars and practitioners involved in the drafting and negotiation of international commercial contracts and the resolution of international commercial disputes. The Rules of Arbitration of the International Chamber of Commerce - commonly referred to as the ICC Rules — are the rules most frequently used in commercial disputes between business partners from different countries. Since they were first launched in 1922, these Rules have been applied in over 21,000 cases. The second revised edition of this eminently practical volume provides an article-by-article commentary of the current version of the ICC Rules of Arbitration in force as from 1 January 2012. Using clear and concise language, unencumbered by footnotes and illustrated by flow diagrams, the authors guide the reader through the various stages of ICC arbitration proceedings, from initiation to the final award. This thorough analysis is enhanced with other invaluable material, including: • a digest of statistics relating to ICC arbitration for the years 2009 to 2013; • references to selected national arbitration laws and to the UNCITRAL Model Law on International Commercial Arbitration; • a bibliography, including useful web sites; and • a separate chapter on ICC's other dispute resolution services, such as mediation, expert proceedings, dispute boards, DOCDEX and the pre-arbitral referee procedure. Appendices provide the reader with the texts of ICC's various dispute resolution rules and other relevant documents. The authors, all practicing lawyers, have all worked as counsel at the Secretariat of the ICC International Court of Arbitration. They have gone on to represent parties and act as arbitrators in many international proceedings. They also serve as mediators and party representatives in international mediations. They are also members of the ICC Commission on Arbitration and ADR and participated in the discussions leading to the 2012 ICC Rules of Arbitration. Written from a practical perspective, this book remains an essential resource for company lawyers who wish to familiarize themselves with ICC arbitration, assess the pros and cons of entering into an arbitration clause referring to the ICC Rules, or obtain information and guidance on how to proceed in a given situation. Arbitration practitioners will find useful information on the practice of ICC arbitration, including various notes of the ICC Court Secretariat and reports of the

ICC Commission on Arbitration and ADR. Irrespective of the increasing harmonization of law at the transnational level, every arbitration raises a number of conflict of laws problems relating to procedural questions as well as to issues concerning the merits of the case. Unlike a state court judge, the arbitrator has no "lex fori" in the proper sense providing the relevant conflict rules to determine the applicable law. This raises the question of what conflict of laws rules to apply and, consequently, of the extent of the freedom the arbitrator enjoys in dealing with this and related issues. The best example of the importance of conflict of laws questions in arbitration is the Vivendi-Elektrim saga where the outcome of the various proceedings depended on the question of characterization. This very beneficial book is dealing with - the arbitration agreement, - the jurisdiction of the arbitral tribunal, - the law applicable to the merits and - the arbitration procedure. International Chamber of Commerce Arbitration is a hands-on guide providing a critical evaluation of the advantages and disadvantages at every step in the arbitral process including practical facts, figures, pragmatic suggestions and warnings. The book is essential to anyone who is involved in ICC arbitration, or who may have to consider the use of an ICC arbitration clause. Published in cooperation with the International Chamber of Commerce, this text covers every aspect of ICC arbitration. The authors, seasoned experts, provide a detailed description of the arbitral process from the formation of the agreement to arbitrate to the appeal of the enforcement, covering in detail the important rulings of the ICC and their potential impact on future awards. The fourth edition has been fully updated to take account of the 2012 ICC Rules of Arbitration. The Collection of ICC Arbitral Awards 1991-1995 contains extracts of cases handled by the ICC Court of Arbitration, one of the world's most respected arbitral institutions. In 1998, shortly after the entry into force of the current version of the Rules, the First Edition of this book appeared and quickly became an indispensable resource for all those involved or interested in ICC arbitrations, including arbitrators, counsel, and parties. In this updated and revised edition, the authors two of the world's leading experts on ICC arbitration have revised the Guide in order to take stock not only of the evolution in ICC practice over the last seven years, but of new arbitral and judicial decisions bearing on the interpretation and application of the Rules and of developments in international arbitration practice generally. The Guide's notable features include: article-by-article commentary on the ICC Rules, enriched by the authors' personal involvement in their drafting and years of experience as arbitrators, counsel, and former Secretaries General of the ICC International Court of Arbitration; ample and greatly expanded references, in respect of the Rules' individual provisions, to relevant national court judgments and arbitral awards, together with extensive bibliographical sources; and up-to-date statistics on ICC arbitration and copies of all ICC rules on dispute resolution mechanisms in addition to

arbitration. A truly comprehensive reference work on ICC arbitration practice, the Second Edition of the Guide will be of immeasurable value to corporate counsel, international lawyers, and business people, as well as to all those interested in the international arbitration process. "The main focus of the fifth edition is the application of the amendments to the ICC Rules in 2017 and the introduction of several new provisions in 2021, both under the aegis of Alexis Mourre as President of the ICC Court. These include in particular, the application of Article 29 with respect to emergency arbitrators introduced in 2012 as well as the application of Article 30 with respect to expedited procedures introduced in 2017. In addition in 2021, was another welcome addition to the ICC Rules in Article 43 which provides that claims against the ICC are subject to French law and to the Paris Judicial Tribunal."--Pref. Collection of ICC Arbitral Awards. This first volume of the Collection of ICC Arbitral Awards contains the awards that have already been published between 1974 and 1985 in the Yearbook Commercial Arbitration, the Journal du Droit International (Clunet) and also in the International Construction Law Review. In this volume (1974-1985), certain awards are produced both in English and French. This book is an invaluable reference for anyone who wants to be informed about the ICC arbitration procedure and the awards made applying the different laws of a variety of trading nations. It is equally useful to the practitioner involved in drafting, negotiating and resolving international commercial contracts as it is to the scholar seeking source material on today's trends in international private and commercial law. Collection of ICC Arbitral Awards (CIAA) Vol. 1 Focusing on the 2012 ICC Rules and-- which apply to all ICC arbitrations commenced on or after 1 January 2012 unless the parties have agreed that an earlier version should apply and-- this book serves the needs of the following parties: those who want a full introduction to the topic of ICC arbitration; those who already have a good understanding of how ICC arbitration worked under the old 1998 ICC Rules but are looking for an update on the new 2012 ICC Rules; those who need to take a decision on whether to opt for ICC arbitration; those who have opted for ICC arbitration and need to draft an ICC arbitration clause; and those who are actually faced with the prospect of an ICC arbitration. As far as possible, the book is structured so as to follow the sequence of events that would typically take place in the resolution of a dispute by arbitration. Following a discussion of preliminary matters, the authors go on to describe the process leading from negotiation to arbitration, the initial decisions that may be taken by the ICC International Court of Arbitration, and the different steps in the proceedings before the arbitral tribunal. The book concludes with a discussion of the award and its enforcement. Extensive references to relevant books, articles, websites and other resources as well as a comprehensive glossary further enhance the book's practical value. The development of international arbitration as an autonomous legal order comprises one of the most remarkable stories of institution building at the global level over the past century. Today, transnational firms and states settle their most important commercial and investment disputes not in courts, but in arbitral centres, a tightly networked set of organizations that compete with one another for docket, resources, and influence. In this book, Alec Stone Sweet and Florian Grisel show that international arbitration has undergone a self-sustaining process of institutional evolution that has steadily enhanced arbitral authority. This judicialization process was sustained by the explosion of trade and investment, which generated a steady stream of high stakes disputes, and the efforts of elite arbitrators and the major centres to construct arbitration as a viable substitute for litigation in domestic courts. For their part, state officials (as legislators and treaty makers), and national judges (as enforcers of arbitral awards), have not just adapted to the expansion of arbitration; they have heavily invested in it, extending the arbitral order's reach and effectiveness. Arbitration's very success has, nonetheless, raised serious questions about its legitimacy as a mode of transnational governance. The book provides a clear causal theory of judicialization, original data collection and analysis, and a broad, relatively non-technical overview of the evolution of the arbitral order. Each chapter compares international commercial and investor-state arbitration, across clearly specified measures of judicialization and governance. Topics include: the evolution of procedures; the development of precedent and the demand for appeal; balancing in the public interest; legitimacy debates and proposals for systemic reform. This book is a timely assessment of how arbitration has risen to become a key component of international economic law and why its future is far from settled. The ICC Rules of Arbitration ('the Rules') constitute one of the world's oldest and most widely used sets of rules for international commercial disputes. On January 1, 1998, new rules took effect which represent the first major reform of the Rules in two decades. Both authors had an intimate involvement in the preparation of the new Rules--Mr. Derains, As chairman of the working party that prepared them, and Mr. Schwartz as Secretary General of the ICC Court during their preparation (Mr. Derains has also served in this position). In the Guide, they draw on their knowledge of ICC Court practice and of issues that commonly arise in connection with the application and interpretation of the Rules. The result: a unique, practical reference for anyone dealing with or expecting to deal with the new ICC Rules.
