Old age isn't for wimps, nor is it for those without a sense of humor. The Big Book of Senior Moments is chock full of those small blunders, momentary lapses, and misplaced keys that happen to all of us. Humor might not help you remember your cat's name, but it will certainly make you feel less alone! Did you know that Albert Einstein once searched frantically for his misplaced train ticket because he couldn't remember where he was going? Or that Marilyn Monroe forgot the same line through 52 takes during the filming of *Some Like it Hot*? Can you believe that Marlon Brando had to have his lines written on another actor's forehead so he could get through a scene? If you have done something like this, don't despair, for you are among other greats like Lincoln, Beethoven, Newton, Toscanini, and a whole assortment of presidents, poets, philosophers, popes, and Nobel Prize-winners. The Big Book of Senior Moments will be sure to bring a smile to friends and family alike. Don't forget to pick up your copy today! At the age of 50, Paul Runyan hit the ball just as consistently and even farther than he had during his younger years. In this book, the two-time World Senior Champion guides golfers over 50 how to play better, score better, and get more enjoyment out of the game. No one is more qualified to instruct senior golfers than Paul Runyan, who gave over 2,000 lessons a year at the La Jolla Country Club, both to dubs and to some of the best amateurs and pros of the day. Paul Runyan's *Book for Senior Golfers* is crammed with unique direction about putting, chipping, and making wedge shots from long grass around greens. Find out why a five wood is better for most players than the two iron. This book also features helpful instructional line drawings and photographs, as well as tips on training and the proper competitive attitude. Because of Runyan's no-nonsense teaching style, younger players would also find this book useful. Paul Runyan (1908-2002), also known as "Little Poison" for his small stature and deadly short-game technique, began his golf career as a caddy and went on to become one of the world's best players in the 1930s. Largely self-taught, Runyan achieved 29 PGA tour wins, including two PGA Championships. After serving in the US Navy during WWII, Runyan began his career as an instructor, during which he developed unique styles for putting and chipping. Among other awards and honors, Runyan was inducted into both the World Golf Hall of Fame and the World Golf Teacher's Hall of Fame. *Moving in the Right Direction* shares Bruce's experience and expertise on the many issues involved when seniors consider moving from their long-term home. Martha Andersson may be seventy-nine-years-old and live in a retirement home, but that doesn't mean she's ready to stop enjoying life. So when the new management of Diamond House starts cutting corners to save money, Martha and her four closest friends—The Genius, The Rake, Christina

and Anna-Gretta (a.k.a. The League of Pensioners)—won't stand for it. Fed up with early bedtimes and overcooked veggies, this group of feisty seniors sets about to regain their independence, improve their lot, and stand up for seniors everywhere. Their solution? White collar crime. What begins as a relatively straightforward robbery of a nearby luxury hotel quickly escalates into an unsolvable heist at the National Museum. With police baffled and the Mafia hot on their trail, the League of Pensioners has to stay one walker's length ahead if it's going to succeed.... Told with all the insight and humor of *A Man Called Ove* or *Where'd You Go Bernadette?*, *The Little Old Lady Who Broke All the Rules* is a delightful and heartwarming novel that goes to prove the adage that it's not the years in your life that count, it's the life in your years. With 10,000 baby boomers turning 65 each day, the need for senior living is growing at a steep rate, and the aging services field has been hard at work preparing for these new customers. Current practices aim to bring the kind of comfort and amenities enjoyed at hotels and resorts to the settings we create for older adults to live in. But what if these efforts are misdirected? Interweaving research on aging, ideas from influential thinkers in the aging services field, and the author's own experiences managing and operating senior living communities, Disrupting the Status Quo of Senior Living: A Mindshift challenges readers to question long-accepted practices, examine their own biases, and work toward creating vibrant cultures of possibility and growth for elders. Shining a light on her own professional field, Jill Vitale-Aussem exposes the errors of current thinking and demonstrates how a shift in perspective can effect real cultural transformation. Her book delves into society's inherent biases about growing older--where ageism, paternalism, and ableism abound--and provokes readers to examine how a youth-obsessed culture unconsciously impacts even the most well-meaning senior living policies, practices, and organizations. Deconstructing the popular hospitality

model, for example, Vitale-Aussem explains how it can actually undermine feelings of purpose and independence. In its place, she proposes better ways to create opportunities for older people to exercise choice, autonomy, and self-efficacy. Filled with empowering stories of elders who find purpose and belonging within their senior residences, *Disrupting the Status Quo* of Senior Living builds on AARP's disrupt aging work and demonstrates that to truly transform senior living, we must dig deeper and create communities that promote the potential and value of the people who live and work in these settings. Introduction to Senior Transportation focuses on an issue that is a growing concern—the community mobility needs of older adults. Surpassing the coverage available in existing gerontology textbooks, it enables the reader to understand and appreciate the challenges faced by older adults as they make the transition from driving to using transportation options (many of which were not designed to meet their particular needs). It considers the physical and cognitive limitations of older adult passengers, the family of transportation services, the challenges providers face in meeting the assistance and support needs of senior passengers, and the transportation methods that do and do not currently meet the needs and wants of senior passengers. This

textbook addresses the educational and professional development needs of faculty, students, and practitioners working in the fields of aging, aging services, and transportation. The book has been class-tested and features innovative, practical learning tools that appeal to students and practitioners.
