Eddie is a wounded war veteran, an old man who has lived, in his mind, an uninspired life. His job is fixing rides at a seaside amusement park. On his 83rd birthday, a tragic accident kills him, as he tries to save a little girl from a falling cart. He awakes in the afterlife, where he learns that heaven is not a destination. It's a place where your life is explained to you by five people, some of whom you knew, others who may have been strangers. One by one, from childhood to soldier to old age, Eddie's five people revisit their connections to him on earth, illuminating the mysteries of his "meaningless" life, and revealing the haunting secret behind the eternal question: "Why was I here?" Readers of exciting, challenging and visionary literary fiction—including admirers of

Norman Rush's *Mating*, Ann Patchett's *State of Wonder*, Barbara Kingsolver's *The Poisonwood Bible*, and Peter Matthiessen's *At Play in the Fields of the Lord*—will be drawn to this astonishingly gripping and accomplished first novel. A decade in the writing, this is an anthropological adventure story that combines the visceral allure of a thriller with a profound and tragic vision of what happens when cultures collide. It is a book that instantly catapults Hanya Yanagihara into the company of young novelists who really, really matter. In 1950, a young doctor called Norton Perina signs on with the anthropologist Paul Tallent for an expedition to the remote Micronesian island of Ivu'ivu in search of a rumored lost tribe. They succeed, finding not only that tribe but also a group of forest dwellers they dub "The Dreamers," who turn out to be fantastically long-lived but progressively more senile. Perina suspects the source of their longevity is a hard-to-find turtle; unable to resist the possibility of eternal life, he kills one and smuggles some meat back to the States. He scientifically proves his thesis, earning worldwide fame and the Nobel Prize, but he soon discovers that its miraculous property comes at a terrible price. As things quickly spiral out of his control, his own demons take hold, with devastating personal consequences.

Updated for today's readers, Dale Carnegie's timeless bestseller *How to Win Friends and Influence People* is a classic that has improved and transformed the professional and personal lives of millions. One of the best-known motivational guides in history, Dale Carnegie's groundbreaking book has sold tens of millions of copies, been translated into almost every known language, and has helped countless people succeed. Originally published during the depths of the Great Depression—and equally valuable during booming economies or hard times—Carnegie's rock-solid, time-tested advice has carried countless people up the ladder of success in their professional and personal lives. *How to Win Friends and Influence People* teaches you: -How to communicate effectively -How to make people like you -How to increase your ability to get things done -How to get others to see your side -How to become a more effective leader -How to successfully navigate almost any social situation -And so much more! Achieve your maximum potential with this updated version of a classic—a must-read for the 21st century. The National Book Award Finalist and New York

Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump "A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book." —Jason DeParle, *The New York Times Book Review* When Donald Trump won the 2016 presidential election, a bewildered nation turned to *Strangers in Their Own Land* to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the *New Republic*, "Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite." Already a favorite common read book in communities and on campuses across the country and called "humble and important" by David Brooks and "masterly" by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book. From sriracha to Tabasco, this funny, feisty book is an illustrated love letter to the quirky stories and fiery flavors of the world's best hot sauces. Smart, short, and just a touch silly, *This Is a Book for People Who Love Hot Sauce* is exactly that - a book for people who love hot sauce. For devoted fans and casual enthusiasts alike, this charming guide is nothing short of a celebration of capsaicin. An introduction to the condiment's storied history and traditional producing regions, as well as its significance in popular culture, is paired with engaging profiles of more than two dozen of the world's most tongue-singeing sauces. Fiery facts and spicy asides add a dash of context, while vintage-inspired illustrations capture the essence of each iconic bottle. Deeply researched, but not too serious, *This Is a Book for People Who Love Hot Sauce* is sure to rise to the top of the Scoville scale. From the renowned author of *The African Trilogy*, a political satire about an unnamed African country navigating a path between

violence and corruption As Minister for Culture, former school teacher M. A. Nanga is a man of the people, as cynical as he is charming, and a roguish opportunist. When Odili, an idealistic young teacher, visits his former instructor at the ministry, the division between them is vast. But in the eat-and-let-eat atmosphere, Odili's idealism soon collides with his lusts—and the two men's personal and political tauntings threaten to send their country into chaos. When Odili launches a vicious campaign against his former mentor for the same seat in an election, their mutual animosity drives the country to revolution. Published, prophetically, just days before Nigeria's first attempted coup in 1966, *A Man of the People* is an essential part of Achebe's body of work. Grassroots organizing and collective action have always been fundamental to American democracy but have been burgeoning since the 2016 election, as people struggle to make their voices heard in this moment of societal upheaval.

Unfortunately much of that action has not had the kind of impact participants might want, especially among movements representing the poor and marginalized who often have the most at stake when it comes to rights and equality. Yet, some instances of collective action have succeeded. What's the difference between a movement that wins victories for its constituents, and one that fails? What are the factors that make collective action powerful? *Prisms of the People* addresses those questions and more. Using data from six movement organizations—including a coalition that organized a 104-day protest in Phoenix in 2010 and another that helped restore voting rights to the formerly incarcerated in Virginia—Hahrie Han, Elizabeth McKenna, and Michelle Oyakawa show that the power of successful movements most often is rooted in their ability to act as “prisms of the people,” turning participation into political power just as prisms transform white light into rainbows. Understanding the organizational design choices that shape the people, their leaders, and their strategies can help us understand how grassroots groups achieve their goals. Linking strong scholarship to a deep understanding of the needs and outlook of activists, *Prisms of the People* is the perfect book for our moment—for understanding what's happening and propelling it forward. The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged,

and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively. The history of Judaism has for too long been dominated by the theme of antisemitism, reducing Judaism to the recurrent saga of persecution and the struggle for survival. The history of philosemitism provides a corrective to that abysmal view, a reminder of the venerable religion and people that have been an inspiration for non-Jews as well as Jews. There is a poetic justice – or historic justice – in the fact that England, the first country to expel the Jews in medieval times, has produced the richest literature of philosemitism in modern times. From Cromwell supporting the readmission of the Jews in the 17th century, to Macaulay arguing for the admission of Jews as Members of Parliament in the 19th century, to Churchill urging the recognition of the state of Israel in the 20th, some of England’s most eminent writers and statesmen have paid tribute to Jews and Judaism. Their speeches and writing are powerfully resonant today. As are novels by Walter Scott, Disraeli, and George Eliot, which anticipate Zionism well before the emergence of that movement and look forward to the state of Israel, not as a refuge for the persecuted, but as a “homeland” rooted in Jewish history. A recent history of antisemitism in England regretfully observes that English philosemitism is “a past glory.” This book may recall England – and not only England – to that past glory and inspire other countries to emulate it. It may also reaffirm Jews in their own faith and aspirations. A modern-day classic. This highly acclaimed adventure series about two friends desperate to save their doomed city has captivated kids and teachers alike for almost fifteen years and has sold over 3.5 MILLION copies! Lina and Doon have led the citizens of

Ember to an exciting new world. When they discover a village called Sparks, they are welcomed, fed, and given places to sleep. But the town's resources are limited and it isn't long before resentment begins to grow between the two groups. When mysterious acts of vandalism cause tempers to erupt, putting everyone's lives in danger, it's up to our two heroes to find the courage to stop the conflict and bring peace. Praise for the City of Ember books: Nominated to 28 State Award Lists! An American Library Association Notable Children's Book A New York Public Library 100 Titles for Reading and Sharing Selection A Kirkus Reviews Editors' Choice A Child Magazine Best Children's Book A Mark Twain Award Winner A William Allen White Children's Book Award Winner "A realistic post-apocalyptic world. DuPrau's book leaves Doon and Lina on the verge of undiscovered country and readers wanting more." —USA Today "An electric debut." —Publishers Weekly, Starred "While Ember is colorless and dark, the book itself is rich with description." —VOYA, Starred

Amid a vast influx of rural migrants into urban areas, China has allowed cities wide latitude in providing education and other social services. While millions of people have been welcomed into the megacities as a source of cheap labor, local governments have used various tools to limit their access to full citizenship. The Urbanization of People reveals how cities in China have granted public goods to the privileged while condemning poor and working-class migrants to insecurity, constant mobility, and degraded educational opportunities. Using the school as a lens on urban life, Eli Friedman investigates how the state manages flows of people into the city. He demonstrates that urban governments are providing quality public education to those who need it least: school admissions for nonlocals heavily favor families with high levels of economic and cultural capital. Those deemed not useful are left to enroll their children in precarious resource-starved private schools that sometimes are subjected to forced demolition. Over time, these populations are shunted away to smaller locales with inferior public services. Based on extensive ethnographic research and hundreds of in-depth interviews, this interdisciplinary book details the policy framework that produces unequal outcomes as well as providing a fine-grained account of the life experiences of people drawn into the cities as workers but excluded as

full citizens. Simple and timeless tools for success and happiness For more than eighty years, millions of people from Warren Buffett to Oprah Winfrey have benefited from the remarkable wisdom of Dale Carnegie. Intended as a basic sales primer, *How to Win Friends and Influence People* quickly exploded into an overnight success—selling more than fifteen million copies worldwide and becoming one of the most influential books of all time. With an enduring grasp of human nature, Dale Carnegie's *How to Win Friends and Influence People* shows you how to be more persuasive and effective, a better leader and manager, and happier at home and at work. This special new edition of the beloved classic includes an exclusive foreword by Terry O'Reilly.

Presents the history of the United States from the point of view of those who were exploited in the name of American progress. **The Absolute Wildest & Funniest Gag Gift for 2021! What's Inside... ludicrous brain teasers insane mazes fun word searches hilarious hidden picture the wackiest word scrambles hysterical dot to dot crazy crossword puzzles malarkey soaked mad lib quacktastic quizzes walmart would you rather and tons more! Join the masses and unwind with the

People of Walmart.com Adult In-Activity Book: Rolling Back Productivity. Simply sit back, relax, and immerse yourself in brain teasing hilarity. Enjoy mindfulness and relaxation with this brilliant anti-stress, anti-boredom therapy, also the PERFECT gag-gift for all the weirdos in your life. Order now and get started. Your inner peace is waiting. Release your stress in the most enjoyable way possible. Get it today! The Secret to Building Better Relationships in Business and in Life With some people, you just click. The connection is quick and easy. Communication flows. You can tell them anything and they know just what you mean. When you connect in this way, you feel understood and accepted for who you really are. You "get" these people and they get you. We think of this connection as an instantaneous thing, something that either happens or doesn't. Not so, says author Dr. Rick Kirschner. This connection isn't a magical phenomenon; it's a communication skill that can be learned with specific steps and techniques. Based on the author's three decades of experience as an interpersonal communication expert, How to Click with People will show you how to: -Recognize and respond effectively to the four basic communication styles everyone uses -Speak the same language as the person you're talking to, whether emotional or intellectual -Connect in a digital age ruled by e-mail and social media -Master the 7 Signals that will make you-and your ideas-click with others -Troubleshoot the nine obstacles that could be in your way and learn how to avoid or overcome them In the end, Kirschner argues that these skills are crucial because success has less to do with professional knowledge than with "the ability to express ideas, to assume leadership, and to arouse enthusiasm among people." In this How to Win Friends and Influence People for the twenty-first century, he gives readers the advice and insights they need to strengthen their relationships and take charge of their future. This report is the Committee's second inquiry in the effect of the economic downturn on the people of the region. The Committee's terms of reference are: what problems exist and how their effect can be minimised in advance of an economic upturn; how effectively Government agencies and other regional bodies are addressing these problems; and what advice and assistance people need to help them live more sustainable lifestyles in the future. The Committee was particularly interested in the level of indebtedness and

home repossessions; availability of appropriate training; the adequacy of assistance and social cohesion. The Committee is concerned that some of those areas most in need of additional Government assistance may not be aware of new funding available and do not have the capacity to bid for it. They understand that the Taskforce should not be seen as the answer to every problem in the region and that it was set up to focus on the initial economic impact of the downturn. However the Taskforce has reach within the region and uninhibited connection to Whitehall. It is also recognised that the region's third sector has not been as fully engaged as they had hoped. Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is helping restore prisoners' sense of humanity while holding them accountable for their actions. Toews, with years of experience in prison work, shows how these practices can change prison culture and society. Written for an incarcerated audience, and for all those who work with people in prison, this book also clearly outlines the experiences and needs of this under-represented part of our society. A title in The Little Books of Justice and Peacebuilding Series. **NEW YORK TIMES BESTSELLER** • The acclaimed social psychologist challenges conventional thinking about morality, politics, and religion in a way that speaks to conservatives and liberals alike—a “landmark contribution to humanity’s understanding of itself” (The New York Times Book Review). Drawing on his twenty-five years of groundbreaking research on moral psychology, Jonathan Haidt shows how moral judgments arise not from reason but from gut feelings. He shows why liberals, conservatives, and libertarians have such different intuitions about right and wrong, and he shows why each side is actually right about many of its central concerns. In this subtle yet accessible book, Haidt gives you the key to understanding the miracle of human cooperation, as well as the curse of our eternal divisions and conflicts. If you’re ready to trade in anger for understanding, read *The Righteous Mind*. This book highlights the diversity of the world we live in, and poetically demonstrates the importance of treating others as we would like to be treated. This beautiful hardcover children's book, for children 2-8+, is lavishly illustrated to be read and enjoyed time and again. It is a wonderful example of the Golden Rule and bound to be a favorite with any child. The must-read summary of Bill Cosby and Alvin

F. Poussaint's book: "Come on People: On the Path From Victims to Victors". This complete summary of Cosby and Poussaint's book "Come on People" gives an overview of an important work that addresses American race relations and families and communities that feel left behind. They encourage these people by offering solutions to their feelings of abandonment and empowering them to become the victors, and not let these negative feelings impede their ability to move forward. Added-value of this summary: • Save time • Understand • Expand your knowledge To learn more, read "Come on People" and discover Cosby and Poussaint's empowering message about the transition from victim to victor. Collects twenty short stories of Jewish science fiction and fantasy from the 2000s, including Eliot Fintushel's "How the Little Rabbi Grew," Neil Gaiman's "The Problem of Susan," Tamar Yellin's "Reuben," and others. This open access book not only describes the challenges of climate disruption, but also presents solutions. The challenges described include air pollution, climate change, extreme weather, and related health impacts that range from heat stress, vector-borne diseases, food and water insecurity and chronic diseases to malnutrition and mental well-being. The influence of humans on climate change has been established through extensive published evidence and reports. However, the connections between climate change, the health of the planet and the impact on human health have not received the same level of attention. Therefore, the global focus on the public health impacts of climate change is a relatively recent area of interest. This focus is timely since scientists have concluded that changes in climate have led to new weather extremes such as floods, storms, heat waves, droughts and fires, in turn leading to more than 600,000 deaths and the displacement of nearly 4 billion people in the last 20 years. Previous work on the health impacts of climate change was limited mostly to epidemiologic approaches and outcomes and focused less on multidisciplinary, multi-faceted collaborations between physical scientists, public health researchers and policy makers. Further, there was little attention paid to faith-based and ethical approaches to the problem. The solutions and actions we explore in this book engage diverse sectors of civil society, faith leadership, and political leadership, all oriented by ethics, advocacy, and policy with a special focus on poor

and vulnerable populations. The book highlights areas we think will resonate broadly with the public, faith leaders, researchers and students across disciplines including the humanities, and policy makers. Neil deGrasse Tyson's #1 New York Times best-selling guide to the cosmos, adapted for young readers. From the basics of physics to big questions about the nature of space and time, celebrated astrophysicist and science communicator Neil deGrasse Tyson breaks down the mysteries of the cosmos into bite-sized pieces. *Astrophysics for Young People in a Hurry* describes the fundamental rules and unknowns of our universe clearly—and with Tyson's characteristic wit, there's a lot of fun thrown in, too. This adaptation by Gregory Mone includes full-color photos, infographics, and extra explanations to make even the trickiest concepts accessible. Building on the wonder inspired by outer space, *Astrophysics for Young People in a Hurry* introduces an exciting field and the principles of scientific inquiry to young readers. Get read to through time as the incredible story of human beings unfolds before our very eyes... When did the first humans live? How did humans spread all over the world? How has science and technology changed the way we live? And what will happen to humans in the future? The team behind *The Story of Space* and *The Story of Life* present a first book about the human world for very young children, looking at how humans evolved and the history of humanity up to the present day. View our feature on Geraldine Books's *People of the Book*. From the Pulitzer Prize-winning author of *March*, the journey of a rare illuminated manuscript through centuries of exile and war In 1996, Hanna Heath, an Australian rare-book expert, is offered the job of a lifetime: analysis and conservation of the famed Sarajevo Haggadah, which has been rescued from Serb shelling during the Bosnian war. Priceless and beautiful, the book is one of the earliest Jewish volumes ever to be illuminated with images. When Hanna, a caustic loner with a passion for her work, discovers a series of tiny artifacts in its ancient binding—an insect wing fragment, wine stains, salt crystals, a white hair—she begins to unlock the book's mysteries. The reader is ushered into an exquisitely detailed and atmospheric past, tracing the book's journey from its salvation back to its creation. In Bosnia during World War II, a Muslim risks his life to protect it from the Nazis. In the hedonistic salons of fin-de-siècle

Vienna, the book becomes a pawn in the struggle against the city's rising anti-Semitism. In inquisition-era Venice, a Catholic priest saves it from burning. In Barcelona in 1492, the scribe who wrote the text sees his family destroyed by the agonies of enforced exile. And in Seville in 1480, the reason for the Haggadah's extraordinary illuminations is finally disclosed. Hanna's investigation unexpectedly plunges her into the intrigues of fine art forgers and ultra-nationalist fanatics. Her experiences will test her belief in herself and the man she has come to love. Inspired by a true story, *People of the Book* is at once a novel of sweeping historical grandeur and intimate emotional intensity, an ambitious, electrifying work by an acclaimed and beloved author. From the #1 New York Times bestselling author of *Book Lovers* and *Beach Read* comes a sparkling novel that will leave you with the warm, hazy afterglow usually reserved for the best vacations. Two best friends. Ten summer trips. One last chance to fall in love. Poppy and Alex. Alex and Poppy. They have nothing in common. She's a wild child; he wears khakis. She has insatiable wanderlust; he prefers to stay home with a book. And somehow, ever since a fateful car share home from college many years ago, they are the very best of friends. For most of the year they live far apart—she's in New York City, and he's in their small hometown—but every summer, for a decade, they have taken one glorious week of vacation together. Until two years ago, when they ruined everything. They haven't spoken since. Poppy has everything she should want, but she's stuck in a rut. When someone asks when she was last truly happy, she knows, without a doubt, it was on that ill-fated, final trip with Alex. And so, she decides to convince her best friend to take one more vacation together—lay everything on the table, make it all right. Miraculously, he agrees. Now she has a week to fix everything. If only she can get around the one big truth that has always stood quietly in the middle of their seemingly perfect relationship. What could possibly go wrong? Named a Most Anticipated Book of 2021 by Newsweek ? Oprah Magazine ? The Skimm ? Marie Claire ? Parade ? The Wall Street Journal ? Chicago Tribune ? PopSugar ? BookPage ? BookBub ? Betches ? SheReads ? Good Housekeeping ? BuzzFeed ? Business Insider ? Real Simple ? Frolic ? and more! At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the

umbrella acronym LGBT--are becoming more visible in society and more socially acknowledged, clinicians and researchers are faced with incomplete information about their health status. While LGBT populations often are combined as a single entity for research and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which can have an effect on health-related concerns and needs. The Health of Lesbian, Gay, Bisexual, and Transgender People assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research agenda for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and analyzing data, and an increased participation of sexual and gender minorities in research. The Health of Lesbian, Gay, Bisexual, and Transgender People is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT advocacy groups, clinicians, and service providers.

****From the Sunday Times Bestselling Author**** In twenty years behind the till in The Bookshop, Wigtown, Shaun Bythell has met pretty much every kind of customer there is - from the charming, erudite and deep-pocketed to the eccentric, flatulent and possibly larcenous. In *Seven Kinds of People You Find in Bookshops* he distils the essence of his experience into a warm, witty and quirky taxonomy of the book-loving public. So, step inside to meet the crafty Antiquarian, the shy and retiring Erotica Browser and gormless yet strangely likeable shop assistant Student Hugo - along with much loved bookseller favourites like the passionate Sci-Fi Fan, the voracious Railway Collector and the ever-elusive Perfect Customer. Brought to you by the wildly popular website, PeopleofWalmart.com, this official adult coloring book

performs VERY well on Amazon at \$13.99. It is comprised of 37 single sided images, all original and intricate artwork based on the images from the website that makes MILLIONS laugh. It is both beautiful and hilarious." How the new conspiracists are undermining democracy—and what can be done about it Conspiracy theories are as old as politics. But conspiracists today have introduced something new—conspiracy without theory. And the new conspiracism has moved from the fringes to the heart of government with the election of Donald Trump. In *A Lot of People Are Saying*, Russell Muirhead and Nancy Rosenblum show how the new conspiracism differs from classic conspiracy theory, how it undermines democracy, and what needs to be done to resist it. Speed read people, decipher body language, detect lies, and understand human nature. Is it possible to analyze people without them saying a word? Yes, it is. Learn how to become a “mind reader” and forge deep connections. How to get inside people’s heads without them knowing. *Read People Like a Book* isn’t a normal book on body language of facial expressions. Yes, it includes all of those things, as well as new techniques on how to truly detect lies in your everyday life, but this book is more about understanding human psychology and nature. We are who we are because of our experiences and pasts, and this guides our habits and behaviors more than anything else. Parts of this book read like the most interesting and applicable psychology textbook you’ve ever read. Take a look inside yourself and others! Understand the subtle signals that you are sending out and increase your emotional intelligence. Patrick King is an internationally bestselling author and social skills coach. His writing draws of a variety of sources, from scientific research, academic experience, coaching, and real life experience. Learn the keys to influencing and persuading others. •What people’s limbs can tell us about their emotions. •Why lie detecting isn’t so reliable when ignoring context. •Diagnosing personality as a means to understanding motivation. •Deducing the most with the least amount of information. •Exactly the kinds of eye contact to use and avoid Find shortcuts to connect quickly and deeply with strangers. The art of reading and analyzing people is truly the art of understanding human nature. Consider it like a cheat code that will allow you to see through people’s actions and words. Decode people’s thoughts and intentions, and you

can go in any direction you want with them. The book delivers a history from below for the first half of Egyptian history covering the earliest settlements, state formation and the pyramid age. The focus is on the Wadjet province, about 350 km south of modern Cairo in Upper Egypt. Here archaeological records provide an especially rich dataset for the material culture of farmers. Histories of Ancient Egypt have focussed heavily on the kings, monuments and inscriptions, while the working population is hardly mentioned. The book investigates the life of people far from the centres of power. One main aim of the book is the interaction between farmers and the ruling classes at the centres of power and locally. How did decisions at the royal centre affect the life of ordinary people? The Introduction offers a critical survey of Egyptologists and their attitudes towards the working class. The social and cultural background of these researchers is analysed to assess how heavily they are influenced by time and their political and cultural background. The First chapter then describes the location and gives a history of previous research and excavations. The archaeological sites and the recorded ancient place names of the province are presented to provide a geographical framework for the book. The following chapters are arranged in chronological order, mainly according to the archaeological phases visible in the province. It appears that in phases of a weak central government, people in the provinces were much better off, while in phases of a strong central government burials of poorer people are almost absent. The reasons for this are discussed. A substantial part of the book comprises descriptions of single burials and the material culture in the province. The archaeology of the poorer people is the main focus. Burial customs and questions of production are discussed. For a fuller picture, evidence from other parts of Egypt is also taken into account. Thus settlement sites in other regions are presented to provide contemporary evidence for living conditions in particular periods. As the book will focus on the lower classes, the Tributary Mode of Production will be used as the main theoretical framework. The Tributary Mode of Production (previously known as the Asiatic Mode of Production) is a term that goes back to Karl Marx, but was mainly used in the 20th century to describe ancient societies whose economies were not based on slaves. A constant question will be the status of the

working population. Were they slaves, serfs or free citizens? It will be argued that they were most often in a dependent position comparable to that of serfs, while there is little evidence for slavery. The numerous burials presented in the volume are important for highlighting the diversity of burials in the different periods. Many will be placed in special subchapters. Readers can skip these chapters when they prefer to concentrate on the main text. An investigative account of the medical, sexual, and scientific questions surrounding the spread of AIDS across the country. The forms of liberal government that emerged after World War II are in the midst of a profound crisis. In *I Am the People*, Partha Chatterjee reconsiders the concept of popular sovereignty in order to explain today's dramatic outburst of movements claiming to speak for "the people." To uncover the roots of populism, Chatterjee traces the twentieth-century trajectory of the welfare state and neoliberal reforms. Mobilizing ideals of popular sovereignty and the emotional appeal of nationalism, anticolonial movements ushered in a world of nation-states while liberal democracies in Europe guaranteed social rights to their citizens. But as neoliberal techniques shrank the scope of government, politics gave way to technical administration by experts. Once the state could no longer claim an emotional bond with the people, the ruling bloc lost the consent of the governed. To fill the void, a proliferation of populist leaders have mobilized disaffected groups into a battle that they define as the authentic people against entrenched oligarchy. Once politics enters a spiral of competitive populism, Chatterjee cautions, there is no easy return to pristine liberalism. Only a counter-hegemonic social force that challenges global capital and facilitates the equal participation of all peoples in democratic governance can achieve significant transformation. Drawing on thinkers such as Antonio Gramsci, Michel Foucault, and Ernesto Laclau and with a particular focus on the history of populism in India, *I Am the People* is a sweeping, theoretically rich account of the origins of today's tempests. If you're an executive, manager, or anyone interested in leveraging AI within your organization, this is your guide. You'll understand exactly what AI is, learn how to identify AI opportunities, and develop and execute a successful AI vision and strategy. Alex Castrounis, business consultant and former IndyCar engineer and race strategist, examines the value of

AI and shows you how to develop an AI vision and strategy that benefits both people and business. AI is exciting, powerful, and game changing—but too many AI initiatives end in failure. With this book, you'll explore the risks, considerations, trade-offs, and constraints for pursuing an AI initiative. You'll learn how to create better human experiences and greater business success through winning AI solutions and human-centered products. Use the book's AIPB Framework to conduct end-to-end, goal-driven innovation and value creation with AI

Define a goal-aligned AI vision and strategy for stakeholders, including businesses, customers, and users

Leverage AI successfully by focusing on concepts such as scientific innovation and AI readiness and maturity

Understand the importance of executive leadership for pursuing AI initiatives

"A must read for business executives and managers interested in learning about AI and unlocking its benefits. Alex Castrounis has simplified complex topics so that anyone can begin to leverage AI within their organization." - Dan Park, GM & Director, Uber

"Alex Castrounis has been at the forefront of helping organizations understand the promise of AI and leverage its benefits, while avoiding the many pitfalls that can derail success. In this essential book, he shares his expertise with the rest of us." - Dean Wampler, Ph.D., VP, Fast Data Engineering at Lightbend
