Ms. Marvel Feb 25 2023 For use in schools and libraries only.
Kamala Khan, a Pakistani American girl from Jersey City who
lives a conservative Muslim lifestyle with her family, suddenly
acquires superhuman powers and, despite the pressures of school
and home, tries to use her abilities to help her community.

Disability in the Global South May 24 2020 This first-of-its
kind volume spans the breadth of disability research and
practice specifically focusing on the global South. Established
and emerging scholars alongside advocates adopt a critical and
interdisciplinary stance to probe, challenge and shift common
held social understandings of disability in established

discourses, epistemologies and practices, including those in prominent areas such as global health, disability studies and international development. Motivated by decolonizing approaches, contributors carefully weave the lived and embodied experiences of disabled people, families and communities through contextual, cultural, spatial, racial, economic, identity and geopolitical complexities and heterogeneities. Dispatches from Ghana, Lebanon, Sri Lanka, Cambodia, Venezuela among many others spotlight the complex uncertainties of modern geopolitics of coloniality; emergent forms of governance including neoliberal globalization, war and conflicts; the interstices of gender, race, ethnicity, space and religion; structural barriers to redistribution and realization of rights; and processes of disability representation. This handbook examines in rigorous depth, established practices and discourses in disability including those on development, rights, policies and practices, opening a space for critical debate on hegemonic and often unquestioned terrains. Highlights of the coverage include: Critical issues in conceptualizing disability across cultures, time and space The challenges of disability models, metrics and statistics Disability, poverty and livelihoods in urban and rural contexts Disability interstices with migration, race, ethnicity, gender and sexuality Disability, religion and customary societies and practice · The UNCRPD, disability rights orientations and instrumentalities · Redistributive systems including budgeting, cash transfer systems and programming. · Global South-North partnerships: intercultural methodologies in disability research. This much awaited handbook provides students, academics, practitioners and policymakers with an authoritative framework for critical thinking and debate about disability, while pushing theoretical and practical frontiers in unprecedented ways.

As a rock star drummer in the hit band The Brightsiders, Emmy King's life should be perfect. But there's nothing the paparazzi love more than watching a celebrity crash and burn. When a night of partying lands Emmy in hospital, she's branded the latest tabloid train wreck. Luckily, Emmy has her friends and bandmates, including the super-swoonworthy Alfie, to help her pick up the pieces of her life. She knows hooking up with a band member is exactly the kind of trouble she should be avoiding, and yet Emmy and Alfie Just. Keep. Kissing. Jen Wilde, author of Queens of Geek, which Seventeen called, "the geeky, queer book of our dreams" is back with a brand new cast of highly diverse and relatable characters for her fans to fall in love with. Praise for Queens of Geek: "The book deals head on with issues of mental health, body shaming, sexuality, and internet celebrity, handling them with a delicate and skillful touch." -Teen Vogue "This fun book about fierce friendships gives voice to a group of diverse female characters who are so defined by so much more than just their mental health and sexuality." -Bustle "This celebration of geek culture and fandom promotes diversity and being true to oneself." -School Library Journal

Deep Learning Nov 17 2019 An introduction to a broad range of topics in deep learning, covering mathematical and conceptual background, deep learning techniques used in industry, and research perspectives. "Written by three experts in the field, Deep Learning is the only comprehensive book on the subject." -Elon Musk, cochair of OpenAI; cofounder and CEO of Tesla and SpaceX Deep learning is a form of machine learning that enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers deep. This book introduces a broad range of topics in deep learning. The text

offers mathematical and conceptual background, covering relevant concepts in linear algebra, probability theory and information theory, numerical computation, and machine learning. It describes deep learning techniques used by practitioners in industry, including deep feedforward networks, regularization, optimization algorithms, convolutional networks, sequence modeling, and practical methodology; and it surveys such applications as natural language processing, speech recognition, computer vision, online recommendation systems, bioinformatics, and videogames. Finally, the book offers research perspectives, covering such theoretical topics as linear factor models, autoencoders, representation learning, structured probabilistic models, Monte Carlo methods, the partition function, approximate inference, and deep generative models. Deep Learning can be used by undergraduate or graduate students planning careers in either industry or research, and by software engineers who want to begin using deep learning in their products or platforms. A website offers supplementary material for both readers and instructors.

The Ministry of the Word, Vol. 1, No 3 Oct 09 2021 In this issue of The Ministry we conclude our series of messages entitled "Vision in God's Economy," comprising Brother Lee's fellowship with the elders and co-workers in Taipei in March 1986. The present vision and practice in the Lord's recovery are the culmination of all the visions, which God has given to men in His holy Word. Our vision and practice today are according to God's New Testament economy to build up the Body of Christ to

consummate the New Jerusalem. This is the vision, which matches the age, and it is the basis of the one accord among us. Six other messages in this issue are taken from the International Conference of Co-workers and Elders in September 1997. The subject of this conference was "Vital Factors in the Lord's Present Move." These vital factors are related to the apostles' teaching, the Body of Christ, and the elders' shepherding of the church. Caring diligently for these factors ensures that in our living and laboring we are kept in the central lane of the divine revelation with one way for one goal—the goal of God's eternal economy—which we carry out by shepherding in cooperation with Christ's heavenly ministry. These messages were spoken by twelve brothers in a blending way, and they include excerpts from Brother Lee's written ministry. In this issue we report on our endeavor to acquire an enlarged campus for the spread of the work of God's New Testament ministry in the Lord's recovery. We also provide fellowship concerning the Lord's move on the earth through letters from Ghana, France, Poland, and Romania. Lastly, we provide a report concerning the translation of the written ministry into the Spanish language.

Understanding Civil War: Africa Jul 26 2020 This publication is part of a two volume set which builds upon previous World Bank research into the causes and characteristics of civil war onset, particularly the model developed by Paul Collier and Anke Hoeffler regarding the relationship between violent political conflict and economic development. This volume considers the variables identified in the Collier-Hoeffler model and applies them to a set of case studies from a range of African countries, and then goes on to trace the process of conflict escalation in order to draw conclusions as to why civil war is likely to occur. The publication seeks to advance theoretical and

empirical knowledge of civil war, in order to help further the objective of developing appropriate policy interventions. Another volume with case studies from a range of non-African countries is available separately (ISBN 0821360493).
