Taking the cue from the currency of risk in popular and interdisciplinary academic discourse, this book explores the development of the English novel in relation to the emergence and institutionalization of risk, from its origins in probability theory in the late seventeenth century to the global ‘risk society’ in the twenty-first century. Focussing on 29 novels from Defoe to McEwan, this book argues for the contemporaneity of the rise of risk and the novel and suggests that there is much to gain from reading the risk society from a diachronic, literary-cultural perspective. Tracing changes and continuities, the fictional case studies reveal the human preoccupation with safety and control of the future. They show the struggle with uncertainties and the construction of individual or collective ‘logics’ of risk, which oscillate between rational calculation and emotion, helplessness and denial, and an enabling or destructive sense of adventure and danger. Advancing the study of risk in fiction beyond the confinement to dystopian disaster narratives, this book shows how topical notions, such as chance and probability, uncertainty and responsibility, fears of decline and transgression, all cluster around risk. This collection of authoritative essays represents the latest scholarship on topics relating to the themes, movements, and forms of English fiction, while chronicling its development in Britain from the early 18th century to the present day. Comprises cutting-edge research currently being undertaken in the field, incorporating the most salient critical trends and approaches Explores the history, evolution, genres, and narrative elements of the English novel Considers the advancement of various literary forms – including such genres as realism, romance, Gothic, experimental fiction, and adaptation into film Includes coverage of narration, structure, character, and affect; shifts in critical reception to the English novel; and geographies of contemporary English fiction Features contributions from a variety of distinguished and high-profile literary scholars, along with emerging younger critics Includes a comprehensive scholarly bibliography of critical works on and about the novel to aid further reading and research The past few decades have witnessed an unprecedented surge of interest in the language of the Late Modern English period. Late Modern English: Novel Encounters covers a broad range of topics addressed by international experts in fields such as phonology, morphology, syntax, lexis, spelling and pragmatics; this makes the collection attractive to any scholar or student interested in the history of English. Each of the four thematic sections in the book represents a core area of Late Modern English studies. This division makes it easy for specialists to access the chapters that are of immediate relevance to their own work. An introductory chapter establishes connections between chapters within as well as between the four sections. The volume highlights recent advances in research methodology such as spelling normalization and other areas of corpus linguistics; several contributions also shed light on the interplay of internal and external factors in language change. First published in 1951 (this edition in 1967), this book forms the first part of Arnold Kettle’s An Introduction to the English Novel. Since the novel, like every other literary form, is a product of history, the book opens with a discussion of how and why the novel developed in England in the eighteenth century, as well as the function and background of prose fiction. The third part of the book examines six great novels from Jane Austen to George Eliot. A serious and rewarding study. The Times Literary Supplement His examination of some eighteenth century writers and analysis of six famous novels- from Emma to Middlemarch- have wit, authority and a sensitivity that compel the reader’s attention. Dublin Magazine " The English Novel in History 1700-1780 provides students with specific contexts for the early novel in response to a new understanding of eighteenth-century Britain. It traces the social and moral representations of the period in extended readings of the major novelists, as well as evaluating the importance of lesser known ones. John Richetti traces the shifting subject matter of the novel, discussing: \* scandalous and amatory fictions \* criminal narratives of the early part of the century \* the more disciplined, realistic, and didactic strain that appears in the 1740’s and 1750’s \* novels promoting new ideas about the nature of domestic life \* novels by women and how they relate to the shift of subject matter This original and useful book revises traditional literary history by considering novels from those years in the context of the transformation of Britain in the eighteenth century. Written by one of the world’s leading literary theorists,this book provides a wide-ranging, accessible and humorousintroduction to the English novel from Daniel Defoe to the presentday. Covers the works of major authors, including Daniel Defoe, Henry Fielding, Samuel Richardson. Laurence Sterne, Walter Scott, Jane Austen, the Brontës, Charles Dickens, George Eliot, Thomas Hardy, Henry James, Joseph Conrad, Virginia Woolf, D.H. Lawrence and James Joyce. Distils the essentials of the theory of the novel. Follows the model of Eagleton’s hugely popular Literary Theory: An Introduction (Second Edition, 1996). Bonded Leather binding "Nowadays, most readers take the intersection between fiction and fact for granted. We’ve developed a faculty for pretending that even the most bizarre literary inventions are, for the nonce, real. . . . The value of Davis’s book is that it explores the h ‘So far as the young were concerned,’ Orwell wrote of Britain in the years after the Great War, ‘the official beliefs were dissolving like sandcastles.’ Most critical accounts of that postwar generation have been constrained by having to deal with the myth of the ‘thirties.’ Michael Gorra’s innovation in this exciting study of the postwar generation’s major novelists lies in seeing the consequences of that dissolution in formal rather than political terms, arguing that the novelist’s difficulty in representing human character in what Wyndham Lewis called a ‘shell-shocked’ age is itself a sign of that loss of belief. But while most studies of this generation end with the coming of World War 2, Gorra follows these novelists throughout their careers. The result is a book that not only shows how the British novel’s increasing consciousness of its own limitations stands as a mirror to the country’s loss of power, but also provides memorable portraits of four major twentieth century writers. The English Novel, Volume I: 1700 to Fielding collects a series of previously-published essays on the early eighteenth-century novel in a single volume, reflecting the proliferation of theoretical approaches since the 1970s. The novel has been the object of some of the most exciting and important critical speculations, and the eighteenth-century novel has been at the centre of new approaches both to the novel and to the period between 1700 and 1750. Richard Kroll’s introduction seeks to frame the contributions by reference to the most significant critical discussions. These include: the question of whether and how we can talk about the ‘rise’ of the novel; the vexed question of what might constitute a novel; the relationship between the novel and possibly competing genres such as history or the romance; the relationship between early male writers like Defoe and popular novels by women in the early eighteenth century; the general ideological role played by novels relative to eighteenth-century culture (are they means of ideological conscription or liberation?); poststructuralist analyses of identity and gender; and the emergence of sentimental and domestic codes after Richardson. Since the modern European novel is often thought to have been formed in this period, these debates have clear implications for students of the novel in general as well as for those interested in the early enlightenment. Headnotes place each essay within the map of these wider concerns, and the volume offers a useful further reading list. Taken as a whole, this collection encapsulates the state of criticism at the present moment. In The African Novel in English Keith Booker uses eight African novels to illustrate the scopes, varieties and the general aesthetic, cultural, and political concerns that have motivated African authors. In the book "The English Novel," Ford Madox traces the development of the literary genre of the novel from the earliest times to the death of Joseph Conrad. Ford pays a lot of attention to the origin and the laws of development, and the potential of the novel as a genre. Since Speech in the English Novel first appeared in 1973, it has won international recognition as an important pioneering study of a topic that lies on the frontiers of literature and linguistics - the nature and function of fictional dialogue and its relationship to real speech. Drawing on a wide range of examples from many periods, the book includes general and theoretical chapters and also case-studies of particular texts, as well as a whole chapter devoted to Dickens. It has been found stimulating and useful by teachers and students in many countries, and has been praised by numerous scholars. The Year’s Work in English Studies described it as a ‘classic’; Studia Neophilologica said that it ‘opened up new vistas for research’; Language and Style found that it ‘admirably bridges the gap between linguistics and English studies’, and English Studies judged it ‘a thoroughly readable and even entertaining book’. This new edition incorporates numerous revisions, new examples, and additions to the bibliographies. From the New York Times—bestselling author of Legends of the Fall: “Harrison spins the common chaff of a road trip into gold” (Tim McNulty, The Seattle Times). “It used to be Cliff and Vivian and now it isn’t.” With these words, Jim Harrison begins a riotous, moving novel that sends a sixty-something man, divorced and robbed of his farm by a late-blooming real estate shark of an ex-wife, on a road trip across America. Cliff is armed with a childhood puzzle of the United States and a mission to rename all the states and state birds, the latter of which have been unjustly saddled with white men’s banal monikers up until now. His adventures take him through a whirlwind affair with a former student from his high-school-teacher days twenty-some years before, to a “snake farm” in Arizona owned by an old classmate, and to the high-octane existence of his son, a big-time movie producer who has just bought an apartment over the Presidio in San Francisco. Jim Harrison’s riotous and moving cross-country novel, The English Major, is the map of a man’s journey into, and out of, himself. It is vintage Harrison—reflective, big-picture American, and replete with wicked wit. “The English Major is to midlife crisis what The Catcher in the Rye is to adolescence.” —Susan Salter Reynolds, Los Angeles Times Seven days. One girl. No second chances. Madeline Hart is a rising star in British government: beautiful, intelligent, driven to succeed by an impoverished childhood. But she also has a dark secret. She is the lover of the prime minister, Jonathan Lancaster. When she disappears on the island of Corsica, it’s clear her kidnapers know about the affair and intend to make the PM pay dearly for his sins. Fearful of scandal that will destroy his career, Lancaster decides to handle the matter privately and not involve the police. Enter Gabriel Allon—assassin, art restorer and spy—who must find Madeline within seven days before she is executed. With the clock ticking, Allon is thrust into a deadly game of shadows in which nothing is what it seems—and where the only thing more dangerous than his enemies is the truth. Gabriel’s mission takes him from the criminal underworld of Marseilles, to the stately corridors of power in London—and, finally, to a pulse-pounding climax in Moscow, a city of secrets and violence where there is a long list of men who want Gabriel dead . . . Originally published in 1985, this book traces the development of an ideal of work in English writing which runs parallel to that of the Protestant work ethic. The author has called this the myth of vocation: work is seen as the primary source of self-definition, psychic integration and fulfilment. The root, and the purest form, of the idea is to be found in Robinson Crusoe. This work, so seminal in many ways, presents a prototypical middle-class hero, caught in a conflict between the impulse to adventure and that to create and make profits. The conflicts articulated in this work are picked up more or less explicitly by more than one of the great Victorian novelists. This book treats in detail several paradigmatic examples, deriving its terms of reference from modern sociological treatments of work and its effects on persons. The gospel of work need not result in capitalistic or protestant attitudes, but is compatible also with communistic ideas. This study serves to revalue the concept of work as a humanistic activity as well as offering a subtle reading of major works of literature. Narrated by over twenty distinct voices and full of dangerous humour, English Passengers combines wit, adventure and historical detail in a mesmerizing display of storytelling. When Captain Illiam Quillian Kewley and his band of smugglers have their contraband confiscated they are forced to put their ship, Sincerity, up for charter. The only takers are two Englishmen, the Reverend Geoffrey Wilson, who believes that the Garden of Eden was on the island of Tasmania, and Dr. Thomas Potter who is developing his sinister thesis concerning the races of man. Meanwhile an aboriginal in Tasmania, Peevay, recounts his people’s struggles against the invading British. As the English passengers haplessly approach his land, their bizarre notions ever more painfully at odds with reality, we know a mighty collision is looming. The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty-first century status of eccentric eminence in new media environments. Systematic chapters address ‘The English Novel as a Distinctly Modern Genre?’, ‘The Novel in the Economy’, ‘Genres’, ‘Gender’ (performativity, masculinities, feminism, queer), and ‘The Burden of Representation?’ (class and ethnicity). Extended contextualized close readings of more than twenty key texts from Joseph Conrad’s Heart of Darkness (1899) to Tom McCarthy’s Satin Island (2015) supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives. The twentieth-century English novel encompasses a vast body of work, and one of the most important and most widely read genres of literature. Balancing close readings of particular novels with a comprehensive survey of the last century of published fiction, this Companion introduces readers to more than a hundred major and minor novelists. It demonstrates continuities in novel-writing that bridge the century’s pre- and post-War halves and presents leading critical ideas about English fiction’s themes and forms. The essays examine the endurance of modernist style throughout the century, the role of nationality and the contested role of the English language in all its forms, and the relationships between realism and other fictional modes: fantasy, romance, science fiction. Students, scholars and readers will find this Companion an indispensable guide to the history of the English novel. Written by a foremost scholar of contemporary culture and theory, this book offers not only a survey but also a historical and cultural context to British literature produced in the second half of the twentieth century. Steven Connor provides in-depth analyses of the novel and its relationship with its own form, with contemporary culture and with history. He incorporates an extensive and varied range of writers in his discussions such as\* George Orwell\* William Golding\* Angela Carter\* Doris Lessing \* Timothy Mo\* Hanif Kureishi\* Marina Warner\* Maggie GeeWritten by a foremost scholar of contemporary culture and theory, The English Novel in History, 1950 to the Present offers not only a survey but also a historical and cultural context to British literature produced in the second half of this century. The novel emerged, McKeon contends, as a cultural instrument designed to engage the epistemological and social crises of the age. The Cambridge History of the English Novel chronicles an ever-changing and developing body of fiction across three centuries. An interwoven narrative of the novel’s progress unfolds in more than fifty chapters, charting continuities and innovations of structure, tracing lines of influence in terms of themes and techniques, and showing how greater and lesser authors shape the genre. Pushing beyond the usual period-centered boundaries, the History’s emphasis on form reveals the range and depth the novel has achieved in English. This book will be indispensable for research libraries and scholars, but is accessibly written for students. Authoritative, bold and clear, the History raises multiple useful questions for future visions of the invention and re-invention of the novel. A riveting and unexpected novel that questions whether a peaceful and non-violent community can survive when civilization falls apart. Again, all are asleep, but I am not. I need sleep, but though I read and I pray, I feel too awake. My mind paces the floor. There are shots now and again, bursts here and there, far away, and I cannot sleep. I think of this man in his hunger, shot like a rabbit raiding a garden. For what, Lord? For stealing corn intended for pigs and cattle, like the hungry prodigal helpless in a strange land. I can hear his voice. When a catastrophic solar storm brings about the collapse of modern civilization, an Amish community is caught up in the devastating aftermath. With their stocked larders and stores of supplies, the Amish are unaffected at first. But as the English (the Amish name for all non-Amish people) in the cities become increasingly desperate, they begin to invade nearby farms, taking whatever they want and unleashing unthinkable violence on the gentle communities. Written as the diary of an Amish farmer named Jacob who tries to protect his family and his way of life, When the English Fall examines the idea of peace in the face of deadly chaos. Should members of a nonviolent society defy their beliefs and take up arms to defend themselves? And if they do, can they survive? David Williams’s debut novel is a thoroughly engrossing look into the closed world of the Amish, as well as a thought-provoking examination of how we live today and what remains if the center cannot hold. Young Love Liu, who wonders about life outside of the conformist region of Xinjiang during the Cultural Revolution, is inspired by a teacher to learn English but finds his survival threatened by the atmosphere of suspicion and repression that marks his ho Reproduction of the original: Masters of the English Novel: A Study of Principles and Personalities by Richard Burton Examines the popular reaction to the English novel from 1760 to 1830. Specifically examines the new reading public and the new novel, the circulating library, women and fiction, the novel as a means of instruction, and reading for amusement. A fresh, joyful YA novel that is layered with themes of immigration, cultural identity, and finding your voice in any language. Sixteen-year-old Ana is a poet and a lover of language. Except that since she moved to New Jersey from Argentina, she can barely find the words to express how she feels. At first Ana just wants to return home. Then she meets Harrison, the very cute, very American boy in her math class, and discovers the universal language of racing hearts. But when she begins to spend time with Neo, the Greek Cypriot boy from ESL, Ana wonders how figuring out what her heart wants can be even more confusing than the grammar they’re both trying to master. After all, the rules of English may be confounding, but there are no rules when it comes to love. With playful and poetic breakouts exploring the idiosyncrasies of the English language, Love in English is witty and effervescent, while telling a beautifully observed story about what it means to become “American.” LITERARY COMPANIONS, BOOK REVIEWS & GUIDES. Everybody loves a list but this is a list of major ambition: namely, to select the best 100 novels in the English language, published from the late 17th century to the present day. This list has been built up week by week in The Observer since September 2013, and selected by writer and Observer editor Robert McCrum. With a short critique on each book, this is a real delight for literary lovers. The Oxford Studies in Postcolonial Literatures series offers stimulating and accessible introductions to definitive topics and key genres and regions within the rapidly diversifying field of postcolonial literary studies in English. It is often claimed that unlike the British novel or the novel in indigenous Indian languages, Anglophone fiction in India has no genealogy of its own. Interrogating this received idea, Priyamvada Gopal shows how the English-language or Anglophone Indian novel is a heterogeneous body of fiction in which certain dominant trends and recurrent themes are, nevertheless, discernible. It is a genre that has been distinguished from its inception by a preoccupation with both history and nation as these come together to shape what scholars have termed ‘the idea of India’. Structured around themes such as ‘Gandhi and Fiction’, ‘The Bombay Novel’, and ‘The Novel of Partition’, this study traces lines of influence across significant literary works and situates individual writers and texts in their historical context. Its emergence out of the colonial encounter and nation-formation has impelled the Anglophone novel to return repeatedly to the question: ‘What is India?’ In the most significant works of Anglophone fiction, ‘India’ emerges not just as a theme but as a point of debate, reflection, and contestation. Writers whose works are considered in their context include Rabindranath Tagore, Mulk Raj Anand,

RK Narayan, Salman Rushdie, Nayantara Sahgal, Amitav Ghosh, Arundhati Roy, and Vikram Seth. Elizabeth Singer Rowe played a pivotal role in the development of the novel during the eighteenth century. Winner of the CHOICE Outstanding Academic Title of the Choice ACRL Elizabeth Singer Rowe and the Development of the English Novel is the first in-depth study of Rowe's prose fiction. A four-volume collection of her work was a bestseller for a hundred years after its publication, but today Rowe is a largely unrecognized figure in the history of the novel. Although her poetry was appreciated by poets such as Alexander Pope for its metrical craftsmanship, beauty, and imagery, by the time of her death in 1737 she was better known for her fiction. According to Paula R. Backscheider, Rowe's major focus in her novels was on creating characters who were seeking a harmonious, contented life, often in the face of considerable social pressure. This quest would become the plotline in a large number of works in the second half of the eighteenth century, and it continues to be a major theme today in novels by women. Backscheider relates Rowe's work to popular fiction written by earlier writers as well as by her contemporaries. Rowe had a lasting influence on major movements, including the politeness (or gentility) movement, the reading revolution, and the Bluestocking society. The author reveals new information about each of these movements, and Elizabeth Singer Rowe emerges as an important innovator. Her influence resulted in new types of novel writing, philosophies, and lifestyles for women. Backscheider looks to archival materials, literary analysis, biographical evidence, and a configuration of cultural and feminist theories to prove her groundbreaking argument. From USA Today bestselling author Elizabeth Chadwick comes a gripping, never-before-told, medieval battle of the sexes Matilda, daughter of Henry I, knows that there are those who will not accept her as England's queen when her father dies. But the men who support her rival, and cousin, Stephen do not know the iron will that drives her. She will win her inheritance against all odds, and despite all men. Adeliza, Henry's widowed queen and Matilda's stepmother, is now married to William D'Albini, a warrior who is fighting to keep Matilda off the throne. But Adeliza, born with a strength that can sustain her through heartrending pain, knows that the crown belongs to a woman this time. Both women will stand and fight for what they know is right. But for Matilda, pride comes before a fall. And for Adeliza, even the deepest love is no proof against fate. Written with vivid detail and great historical accuracy, Lady of the English is a captivating historical novel of Medieval England. Fans of Philippa Gregory, Alison Weir, Sharon Kay Penman, and Bernard Cornwall will be spellbound by this well-crafted story of Henry I's daughter, his widow, and their alliance and perseverance as they fight for the rightful heir to the crown—a woman! More Medieval Historical Fiction Titles from Elizabeth Chadwick: The Greatest Knight—the seldom told story of the Greatest Knight of the Middle Ages The Summer Queen a novel of Eleanor of Aquitaine To Defy a King—the story of a noble woman in a tyrant's world What readers are saying about Lady of the English "Great historical details and world-building combined with out-of-this-world characterization." "Everything about this story was compelling, and though it was a long book of 514 pages, I enjoyed every word." "I was from the start deeply immersed into the lives and politics of the times." "As absorbing as a thriller and full of fascinating historical detail." What reviewers are saying about Lady of the English "Lady of the English is a riveting historical fiction novel with thrilling drama and characters that fairly leap off of the page."-Laura's Reviews "A detailed and very readable medieval era novel full of political intrigue and fascinating depictions of the people surrounding the throne of England."-Historical-Fiction.com "The story is vividly described with a depth of historical detail that is rarely matched by other novelists in the genre."-Historical Novel Review Blog What people are saying about bestselling author Elizabeth Chadwick "A star back in Britain, Elizabeth Chadwick is finally getting the attention she deserves here." USA Today "Elizabeth Chadwick is to Medieval England what Philippa Gregory is to the Tudors and the Stuarts, and Bernard Cornwall to the Dark Ages."-Books Monthly, UK "The best writer of medieval fiction currently around." -Historical Novels Review "Chadwick is an icon for the historical fiction community for her ability to create a believable and passionate story based around major events of the era."-The Burton Review "Breathing life into historical personages is hallmark Chadwick."-RT Book Reviews "Picking up an Elizabeth Chadwick novel is like having a Bentley draw up at your door: you know you are in for a sumptuous ride." Daily Telegraph A Companion to the Eighteenth-century Novel furnishes readers with a sophisticated vision of the eighteenth-century novel in its political, aesthetic, and moral contexts. An up-to-date resource for the study of the eighteenth-century novel Furnishes readers with a sophisticated vision of the eighteenth-century novel in its political, aesthetic, and moral context Foregrounds those topics of most historical and political relevance to the twenty-first century Explores formative influences on the eighteenth-century novel, its engagement with the major issues and philosophies of the period, and its lasting legacy Covers both traditional themes, such as narrative authority and print culture, and cutting-edge topics, such as globalization, nationhood, technology, and science Considers both canonical and non-canonical literature What is 'English' about the English novel, and how has the idea of the English nation been shaped by the writers of fiction? How do the novel's profound differences from poetry and drama affect its representation of national consciousness? Nation and Novel sets out to answer these questions by tracing English prose fiction from its late medieval origins through its stories of rogues and criminals, family rebellions and suffering heroines, to the present-day novels of immigration. Major novelists from Daniel Defoe to the late twentieth century have drawn on national history and mythology in novels which have pitted Cavalier against Puritan, Tory against Whig, region against nation, and domesticity against empire. The novel is deeply concerned with the fate of the nation, but almost always at variance with official and ruling-class perspectives on English society. Patrick Parrinder's groundbreaking new literary history outlines the English novel's distinctive, sometimes paradoxical, and often subversive view of national character and identity. This sophisticated yet accessible assessment of the relationship between fiction and nation will set the agenda for future research and debate.
