The proposed regulations would reduce the time for claiming Pension Credit and Housing Benefit/Council Tax Benefit for those who have attained the qualifying age for Pension Credit, from 12 to 3 months, and reduce the period for which claims to Housing Benefit and Council Tax Benefit (HB/CTB) for customers of working age may be backdated, from 52 weeks to 3 months. The regulations also proposed to extend the period for which Pension Credit customers may retain entitlement whilst temporarily absent from Great Britain from 4 to 13 weeks. The Department for Work and Pensions aims to save £260 million by these changes, and to make the administration of the benefits more efficient. The Committee broadly welcomes the changes to the rules on temporary absence abroad, but is not convinced of the case to generate savings by reducing entitlement to HB and CTB and Pension Credit for some of the Department's most vulnerable and excluded customers. The changes will increase indebtedness and evictions, and the Committee believes the economic cost of increased possession proceedings (including the costs of re-housing and other services) have not been factored into the Department's calculations. Violent price fluctuations, land speculation, deflation, depression have exacted their toll on foreclosures, dispossessions, farm bankruptcies. Experiences of the last 15 years could not fail to have had an adverse effect upon the confidence of thousands of American farmers in their future. As they emerge from a period which gave rise to such disastrous experiences, their thoughts, hopes, and desires will be so to shape their social and economic affairs that there will not be a recurrence of the dismal history of the twenties and early thirties. General Scientific Essay from the year 2011 in the subject Business economics - Miscellaneous, grade: Grade A, , course: Economics, language: English, abstract: Social security is a government program that provides assistance to underprivileged persons. A system corresponding to the level of economic development is a logical requirement for coordinated economic and social development of any country. Initially China's Social Security system was very poor, even today to some extent it is still bad. China is one of the biggest country with a largest population in the world and its economy being weak at a time, its social security was not well organized, but now the economy is getting stronger and is the second largest economy in the World, second to USA. Within 20 years it is projected to take over from USA. With this development, China needs to organize itself well, as far as social security is concerned. Even though China has tried to put a comprehensive social security system in place, accessibility is still low, as some places such as the rural areas do not have most of social security programs offered to their counterparts in urban areas.
