*The Making of the West, Volume C: Since 1750* May 16 2022 Students of Western civilization need more than facts. They need to understand the cross-cultural, global exchanges that shaped Western history; to be able to draw connections between the social, cultural, political, economic, and intellectual happenings in a given era; and to see the West not as a fixed region, but a living, evolving construct. These needs have long been central to The Making of the West. The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context, enabling students to witness the unfolding of Western history, understand change over time, and recognize fundamental relationships.

**The Making of the West, Volume C: Since 1740** Sep 20 2022 The Making of the West offers a geographically and culturally expansive conception of the West that prepares students to understand today's globalized world. Its integrated chronological narrative makes the impact of historical developments clear by highlighting the interconnections among the politics, people, and ideas of a specific period. From the book's conception, the authors — a team of renowned scholars and expert teachers — have worked to provide a new vision of the West based on cutting-edge scholarship. The narrative — enhanced by a rich and informative art and map program — distills the latest research and consistently treats topics underserved in other books: the West in global perspective, high and popular art and culture, and gender.
